

Hi everyone! I hope that your summer has been restful and enjoyable.

I am Ferdinand Osená, I will be holding science classes this year.

I finished both my bachelor's and master's degree in science teaching in the Philippines. This is my third year of teaching in the US.

I also have 10 years of teaching experience in the Philippines in a secondary school setting.

I am welcoming everyone in this year's science classes. Let's have a fruitful, fun, and productive year together as we dig into the amazing world of science.

It is of utmost importance to keep the communication open between us. I would love to talk to you whenever you feel the need. I look forward to a great year together!

Ferdinand Osená

Science Teacher

"Science is a way of thinking more than it is a body of knowledge" -Carl Sagan
